Item Description: Adoption Draft of the Larimer County Water Master Plan, developed to guide the County's role in the sustainable stewardship of water resources. The plan, designed to be an element of the Comprehensive Plan, defines the County's responsibilities in protecting watershed health, supporting water conservation, and collaborating with water providers and stakeholders to address water supply challenges, mitigate hazards, and ensure long-term water security for the community. Staff is seeking feedback on the draft to share with the Planning Commission for adoption.
