WORK SESSION

1. Discussion Item: Estes Park Stormwater

Item Description: This work session is a follow up to provide the Board of County Commissioners with more detailed information and answer questions regarding the potential creation of a stormwater utility to address and fund stormwater and flood control needs in the Estes Valley. The attached materials prepared by the town provide background information on prior efforts and activities. Subject to support from both the Town Board and County Commissioners, the documents describe a potential approach to move forward towards creation of a stormwater utility. The proposed utility would be operated as a utility enterprise by the Town of Estes Park. Estes Park Public Works staff will be in attendance and presenting at the work session.
