WORK SESSION

1. Discussion Item: Oil and Gas, Air Quality, and Affordable Housing Funding

Item Description: The Board of County Commissioners are considering a mix of projects that can be funded through excess oil and gas related revenue. Staff and consultants in the Human & Economic Health and the Community Planning, Infrastructure, and Resources service areas have prepared information to describe and evaluate potential projects that help achieve goals related to: (1) affordable housing, (2) oil and gas facility compliance, and (3) air quality improvements. The commissioners will discuss potential projects and may direct staff to further explore or move forward with certain projects.

Laura Walker, Human & Economic Health Director
Lesli K. Ellis, Community Planning, Infrastructure, and Resources Director
